01 The Story behind VCSA

Vintage Cars South Africa, Wat Swaai Jy to our friends, was founded on a heartfelt belief: ***classic cars are far more than just metal and engines.***

They're our stories.
They're our memories.
They're part of who we are together.

South Africa's car culture is truly one of a kind. From rare imports to homegrown legends, these cars carry stories that deserve more than a fleeting glance or a quick transaction. That's the spark that ignited VCSA.

We set out to create a space where these cars could be truly experienced. No rush, no hard sell, just the right atmosphere. That's why we chose Shere, tucked away and tranquil, a place where you can slow down, wander, chat, and soak in every detail.

Over time, it became just as much about the people and the vibrant community bringing these cars to life. This is where our hearts belong.

Owners, collectors, enthusiasts, those who simply get it. People with petrol in their veins, just like us.

It goes beyond buying and selling. It's about connecting, swapping stories, and celebrating these cars together. The cars and the people; they're at the heart of everything we do.

We're creating something greater than a dealership or auction house. We're building a true home for our people. At the same time, we take the business side seriously.

Our business provides a full suite of classic car services: retail sales, auctions, secure storage, reliable transport, comprehensive insurance solutions, and independent valuations. Every aspect is managed with care and expertise, allowing clients to relax and enjoy the journey.

At the end of the day, it's simple:

We exist to give these cars the stage they deserve and to create something meaningful around them for people to enjoy.

Where history changes hands.

02 Declaration & Special Rules

This auction is conducted by Vintage Cars SA (Pty) Ltd (Reg. 2020/602084/07, VAT 4070295706), 18B Amber Avenue, Shere, Pretoria, 0084. Designated Auctioneer: Brandon Mitchell Leer, Brandon Leer Auctioneers (SAIA member CA0254). The auction takes place on 31 October 2026 at 11:00 at Corner Graham Road and Anneke Street, Zwavelpoort, Pretoria, with simultaneous online bidding at vcsaonline.co.za. VCSA acts either as agent for a third-party Seller or as principal selling in its own name; capacity is indicated per lot in the catalogue and announced before bidding opens. These rules are published in terms of the Consumer Protection Act 68 of 2008, Regulation 21 read with Sections 45 and 46.

All bidders must register before the auction commences with a valid SA ID (or passport for foreign nationals) and proof of address not older than 3 months. Online bidders complete the same verification on the platform before bidding. Anyone bidding for a company, close corporation, trust or another person must provide a written letter of authority and the relevant resolution, and both the bidder and the principal must be verified. VCSA may require a refundable registration deposit of R20,000. By registering and/or placing a bid you unconditionally accept the full Rules of Auction. Personal information is processed under POPIA for verification and statutory compliance and retained for a minimum of 5 years per FICA.

All vehicles are sold voetstoots (“as is”); the implied warranty of quality under CPA Section 55 does not apply to auction sales. Lot descriptions and condition reports are compiled in good faith but do not constitute a warranty. “Matching numbers” status is per the Seller’s representation and is not guaranteed by VCSA unless verification by a named third-party specialist is stated in the lot description. Odometer readings on vehicles 25 years or older are not warranted unless stated in writing in the lot description. No verbal statement constitutes a warranty. Bidders are strongly advised to inspect all vehicles and arrange independent mechanical inspection at their own cost before bidding.

Preview is available during business hours from one week before the auction at the venue.

No cooling-off period applies to goods sold at auction, whether bid in person or online. All sales are final: no returns, exchanges or refunds after the fall of the hammer. A bid may be retracted at any time before hammer fall. Online bids are subject to the same rules; the platform’s server time is the record of when a bid was received, and VCSA is not liable for bids lost to a bidder’s own connection or equipment. The Auctioneer may refuse any bid, set increments, withdraw or re-offer lots, and resolve disputes at absolute discretion.

All lots are subject to a confidential Reserve Price unless announced as “No Reserve.” The Auctioneer may place bids on behalf of the Seller up to (never exceeding) the Reserve Price, identified as “House Bids”; no House Bid is placed on a No Reserve lot. If the reserve is met, hammer fall constitutes a binding sale. If not, the lot is “Subject to Confirmation” (STC): the highest bid remains a binding, irrevocable offer for 5 business days. The Seller may accept (sale final) or reject or not respond (bidder released, no fees due).

The hammer price is inclusive of VAT at 15%. On top of the hammer price the purchaser pays a Buyer’s Premium of 12.5% of the hammer price plus VAT on the premium, and an Administration Fee of R3,950 plus VAT per lot. Example: R100,000 hammer + R12,500 premium + R1,875 VAT on premium + R3,950 Administration Fee + R592.50 VAT on the fee = R118,917.50 total. No Buyer’s Premium or Administration Fee is charged on a Charity Lot. Full payment is due by 17:00 on the second business day after VCSA sends the invoice, by EFT or bank deposit only; no cash is accepted on site. Purchasers requiring third-party finance must obtain written pre-approval before bidding; the payment deadline is not extended for finance delays.

Risk passes to the purchaser on hammer fall (for an STC lot, when the Seller’s acceptance is communicated), so arrange your own insurance immediately. Ownership transfers only upon cleared funds. Vehicles are released upon full payment clearance, presentation of original ID and signature of transfer documents. Collection must occur within 7 business days after VCSA confirms the vehicle is ready; thereafter storage is charged at R300 per day. VCSA provides the NaTIS certificate and change of ownership form; roadworthy and registration transfer are not included but are available at standard fees on request.

Failure to pay by the deadline, providing false documentation, or repudiating a purchase after hammer fall constitutes default. VCSA may cancel the sale and claim damages, resell the lot at the defaulter’s risk, and/or retain any deposit. Defaulting purchasers are liable for interest and all legal costs and may be refused registration at future auctions.

Each bidder indemnifies VCSA, its directors, employees and the Auctioneer against claims arising from vehicle condition, defects not deliberately concealed, or Seller-provided information. VCSA’s total liability per lot is capped at the hammer price, but nothing in these rules excludes VCSA’s liability for its own fraud or gross negligence. By bidding you acknowledge the inherent risks of purchasing classic and vintage vehicles at auction and voluntarily assume those risks. Disputes are first raised in writing for good-faith negotiation over 10 business days, then referred to binding arbitration (AFSA, Pretoria), without limiting a consumer’s statutory right to approach a consumer body, tribunal or court. Governed by the laws of the Republic of South Africa.

LOT 01 - DONATION

Volkswagen Beetle 1600

1977

SCAN THE QR CODE TO VIEW PHOTOS & VIDEOS

Vehicle Description

This charming 1977 Volkswagen Beetle 1600 will be the charity lot at our auction on 31 October 2026, with the proceeds donated to the Akademia Toekomsbouer Fund.

Sold with no reserve. Finished in white and paired with a manual transmission, the Beetle presents well and runs well.

The roof rack and surfboard add plenty of character, giving it the unmistakable personality that has made the Beetle such an enduring favourite.

A great little starter classic and an approachable way into classic Volkswagen ownership. It is simple, usable and ready to be enjoyed, while the proceeds from its sale will support a worthy cause.

PERSONAL | PROFESSIONAL | BUSINESS

iTOO™

YOUR EPIC PARTNER IN SPECIALTY INSURANCE

Think Expert. Think iTOO

iTOO Special Risks (Pty) Ltd (Reg No: 2016/281463/07) is an authorised Financial Services Provider (FSP No. 47230). Underwritten by The Hollard Insurance Company Limited (Reg. No. 1952/003004/06), a Licensed Non-Life Insurer and an authorised Financial Services Provider.

Insure with an expert who shares your passion.

At iTOO we understand that classic cars require specialist valuations and claims handling techniques. Methodologies vary greatly from standard motor insurance, which is why at iTOO our insurance for classic cars has been designed by our experts, who are all collectors themselves.

Additional Benefits:

- **Appreciation Clause**
  – up to 20% at claims stage
- **Depreciation in value**
  – compensate client for depreciation in value following an accident and restoration
- **New acquisitions automatically covered for 7days**
- **Temporary removal and storage**
  – vehicle in imminent danger

Why insure your classic car with iTOO?

Service and expertise from experts who understand this is not a hobby, but a passion.

With iTOO Classics your collectable is insured for the correct, agreed value determined by a respected, specialist valuator. With no value limit, cover can start as low as you'd like, because our policies have been designed for assets that appreciate beyond the original retail price over time. This includes adjustment for change in the value of money, vehicles generally older than 20 years, as well as cover for a handful of nominated drivers 30 years of age or older. Collectors younger than 30 can take advantage of our static cover option.

With cover targeted to insure vehicles that are not used on a regular basis, beyond collectables, iTOO also considers highvalue modern and rare vehicles, like the Ferrari 458 Speciale, F12 TDF, Porsche GT2/3 or LaFerrari.

WE ARE DIFFERENT.

As passionate collectors we offer a stand-alone specialised policy as opposed to a bundle option. Unlike most of the local market, we understand that assets can be impaired even after restoration.

Our Depreciation Clause

Our Depreciation Clause states that if repair work furthers damage or drop in value, then you're compensated for the loss. We also take the time to see that any damages or repairs are handled by our panel of approved specialist craftsmen.

Complete peace of mind

To give you complete peace of mind the minute you first open the door, any new acquisition is automatically covered for seven days whilst temporary removal and storage is offered for vehicles in imminent damage.

Alfa Romeo GTV6 3.0

1985

SCAN THE QR CODE TO VIEW PHOTOS & VIDEOS

Vehicle Description

The South African-built Alfa Romeo GTV6 3.0 is one of the most sought-after Alfa homologation specials of its era. Developed to qualify the more powerful 3.0-litre GTV6 for local Group One racing, it was produced in extremely limited numbers, with around 207 examples believed to have been built. Today, genuine cars in good original condition have become exceptionally difficult to find. Importantly, this is an authentic factory 3.0 GTV6 rather than a later conversion, and its authenticity has been confirmed. It retains its original 3.0-litre engine and is finished in white, a colour that suits the purposeful lines of the GTV6 beautifully. The interior remains original and gives the car the honest, unmistakable atmosphere of a properly preserved 1980s Alfa Romeo. It is also an air-conditioning-equipped example, adding welcome usability without detracting from the car's originality or character. The significance of the GTV6 3.0 extends beyond its limited production. It represents a special chapter in South African motor racing and Alfa Romeo history: a road car created with competition homologation firmly in mind.

The larger-capacity V6 gave this model its own identity, combining the handsome transaxle coupé shape with the performance and soundtrack for which Alfa's V6 became famous. This example starts and runs very well and presents as a great example of an increasingly rare model. Its factory 3.0 specification, confirmed authenticity, original engine and original interior are all important attributes in a market where genuine, unspoilt cars are becoming increasingly difficult to replace. A rare opportunity to acquire a proper South African homologation special and one of the most desirable locally produced Alfa Romeos.

Ford Sierra XR8

1984

SCAN THE QR CODE TO VIEW PHOTOS & VIDEOS

Vehicle Description

A South African heavyweight in every sense. What a car. This 1984 Ford Sierra XR8 is another special South African production vehicle, combining the practical Sierra body with proper V8 power and a manual transmission. Produced in limited numbers and becoming increasingly difficult to find in this condition, the XR8 has developed a serious following among collectors of uniquely South African performance cars.

Finished in white and right-hand drive, this example has travelled an exceptionally low 21,299km. More importantly, it remains unrestored and untouched — original inside and out, and as honest as they come. Cars are only original once, and that is precisely what makes this XR8 so special. It has had just two owners from new, with the first owner retaining the car until 2024. That long-term ownership, exceptionally low mileage and preserved condition make this a very difficult car to replace. The books and manuals are also present. The engine number is on record and matches the papers. It starts and runs well, with all lights, gauges, wipers and windows working as they should.

The XR8 has always had presence, but an original, unrestored and low-mileage example like this sits in a different league. It has the stance, the soundtrack and the unmistakable character of a proper old-school South African performance Ford. A highly collectible local special with excellent provenance, very low mileage and the originality serious buyers look for. Hard to replace, and certainly not one to miss.

Mercedes Benz 300 SEL 6.3

1971

SCAN THE QR CODE TO VIEW PHOTOS & VIDEOS

Vehicle Description

The 300 SEL 6.3 remains one of Mercedes-Benz's most celebrated performance saloons: discreet, beautifully engineered and powered by the formidable 6.3-litre engine. This original right-hand-drive example is finished in a striking black-on-black combination and presents exceptionally well. Its restoration was carried out over a period of 25 years and completed in 2023. The work has been finished to a very high standard, while the original interior has been retained — an important detail that preserves the character and authenticity of the car. The result is a beautifully presented 6.3 with the imposing presence for which these cars are so well known. Mechanical attention formed an important part of the restoration. The suspension was serviced, and the fuel-injection pump and injectors were recently rebuilt at a cost of approximately R300,000.

The car has also been maintained by respected Mercedes-Benz specialist Rolf Frommjohann. It starts and runs beautifully, is described as reliable and is offered without any known mechanical issues. These are complex motor cars that reward knowledgeable care, and the recent expenditure on the injection system, together with the suspension work, is particularly noteworthy. The black exterior suits the understated nature of the 300 SEL 6.3 perfectly, while the matching original interior provides an inviting and authentic cabin. It is a combination that gives the car serious presence without detracting from the elegant W109 shape. Books are included, and the paperwork is in order. A very well-finished example of a landmark Mercedes-Benz performance saloon, ready to be enjoyed by its next custodian.

BMW E46 M3 CSL

2004

SCAN THE QR CODE TO VIEW PHOTOS & VIDEOS

Vehicle Description

The E46 M3 CSL needs little introduction. Lighter, sharper and more focused than the standard M3, it has become one of the most sought-after modern BMWs.

This right-hand-drive example is number 3 of a limited run of 65 cars. Showing 79,380 km, it remains original inside and out. The paintwork presents well, as does the purposeful CSL interior, and the car comes with its books and manuals.

Power is delivered through BMW's SMG transmission, an integral part of the CSL's focused character. This is a great example of a rare and increasingly collectible M car, combining limited production, originality and sensible mileage.

If you know, you know. For the enthusiast looking for a proper E46 CSL, this is the one to buy.

SCAN THE QR CODE TO VIEW PHOTOS & VIDEOS

Vehicle Description

An iconic American classic and one of the most recognisable sports cars of its era. This 1961 Chevrolet Corvette C1 is a beautiful example, finished in a striking combination of black, white and red.

The car has been partially restored and presents well, retaining the unmistakable styling and road presence that made the first-generation Corvette a landmark model. Importantly, it appears to be matching numbers, although this has not been confirmed.

Fitted with an automatic transmission, the Corvette starts and runs well. It is an appealing example of a sought-after American classic, offering all the character and presence expected from a C1.

Holden Monaro GTS

1969

SCAN THE QR CODE TO VIEW PHOTOS & VIDEOS

Vehicle Description

A true time capsule. This 1969 Holden Monaro GTS remains original inside and out, beautifully preserved and representing one of Australia's most iconic muscle cars. Powered by the factory 308 V8 and paired with an automatic transmission, it starts easily and runs beautifully. Right-hand drive, power steering and working air conditioning add welcome usability without taking away from the authentic GTS experience.

The original houndstooth interior is a particular highlight, remaining in excellent condition and capturing the character of the era perfectly. The period vinyl roof completes the look, while the paintwork, cabin and overall presentation reflect careful ownership and preservation. With its unmistakable lines, strong V8 performance and genuine motorsport heritage, the Monaro GTS has become one of the most sought-after muscle cars from the Southern Hemisphere.

This is a standout, beautifully preserved example of a model that is becoming increasingly difficult to find in such original condition. A proper Australian muscle-car icon and one not to miss.

328GTS - 1989

Special Lot 74

LOT 74

Ferrari 328GTS

1989

SCAN THE QR CODE TO VIEW PHOTOS & VIDEOS

Vehicle Description

Finished in classic Ferrari red, this right-hand-drive 328 GTS presents exceptionally well and has travelled 47,555km. It remains original inside and out, with only minor cosmetic work completed over the years.

The 328 GTS is powered by Ferrari's V8 engine, paired with the sought-after gated manual transmission. It is a wonderfully analogue Ferrari, combining timeless Pininfarina styling with the open-air appeal of the removable roof panel.

The recorded engine number corresponds with the accompanying papers. Recent maintenance was completed by Rosso Sport, including a cambelt service in October 2026. The car runs very well and is accompanied by a reproduction Ferrari folder and service book. A red, right-hand-drive, gated manual Ferrari is about as classic as it gets.

With its modest mileage, well-preserved condition and unmistakable V8 character, this 328 GTS represents an appealing example of one of Ferrari's landmark models of the period.

Porsche 997.1.5 GT2

2009

SCAN THE QR CODE TO VIEW PHOTOS & VIDEOS

Vehicle Description

One of the stars of the show. This 2009 Porsche 997.1.5 911 GT2 is an exceptionally well-preserved, right-hand-drive example with just 20,708km from new. Finished in white and equipped with the all-important manual transmission, it presents in remarkable condition and is as good as they come.

The car remains original, including its original paintwork, and has clearly been carefully looked after throughout its life. The white finish suits the purposeful GT2 shape beautifully, while the exceptionally low mileage sets this example apart. It also benefits from a Cargraphic exhaust fitted by Porsche, adding to the experience without detracting from the character of the car. The condition is exceptional throughout. Received its most recent service in 2026. It comes with its books and manuals, and all paperwork is in order. The 997-generation GT2 is highly collectible and sought after by Porsche enthusiasts worldwide.

Finding a right-hand-drive example is difficult enough; finding one with a manual transmission, original paint and mileage this low is another matter entirely. With only 20,708km travelled, this is a rare opportunity to acquire a particularly special example of one of Porsche's most desirable modern performance cars. Superb in white, beautifully preserved and supported by its books, manuals and paperwork, this is a GT2 for the serious Porsche collector. Try to find another like it. This is the one to buy.

Indian Despatch Tow

1939

SCAN THE QR CODE TO VIEW PHOTOS & VIDEOS

Vehicle Description

A very rare pre-Second World War Indian three-wheeler, the Despatch Tow is a fascinating piece of motoring and military history. These distinctive machines were used by mechanics during the Second World War and are seldom offered for sale today.

This 1939 example presents well and comes from the renowned Harry Hart Collection. Importantly, it runs and drives, making it more than simply a static display piece.

With its unmistakable design, practical three-wheel configuration and strong historical appeal, this is a special opportunity for the serious motorcycle, military vehicle or transport collector.

Not something you are likely to find again soon.

05 Contact Us

VCSA's 20,000m2 showroom in Shere laid the groundwork: a thoughtfully curated, farm-inspired setting that draws visitors deep into the world of classic motoring. More than a dealership, it invites guests to truly experience each vehicle, not simply observe them.

That foundation has now evolved.

With the launch of its 10-hectare auction precinct in Zwavelpoort (800m from the showroom), VCSA transitions from curated showroom to full-scale auction destination; a purpose-built environment designed to bring collector vehicles into a live, public arena with attractions for the whole family.

While the showroom fostered intimacy and admiration, the auction grounds pulse with scale, excitement, and momentum. Together, they create a seamless ecosystem that flows from tranquil curation to thrilling, high-stakes exchange.

This is not a replacement but an evolution, shifting from a simple space to a grand stage.
